

harri

Disengaged employees are hurting your bottom line.

Say 'Hello' to Harri Engage360.

Sky high frontline turnover shouldn't be an accepted part of doing business in hospitality.

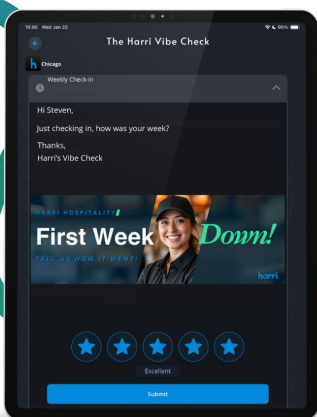

The retention crisis has an acute impact on profitability – from increased recruiting costs to low productivity, weak culture and diminished guest experiences.

Are you ready to create connected frontline teams that are happy, productive and stay longer? Keep reading.

Traditional engagement tools fail the modern, frontline workforce.

We decided to build something better.

Engagement can be flexible, lightweight & fun – delivered where people live & work.

Your frontline teams don't want to use one more tool to tell you how they feel – traditional tools have low adoption, are too infrequent and the unhappiest speak the loudest.

Engage360 redefines how you engage and connect teams.

We reach your people in the flow of work and life – at the clock or on their phones – with easy micro-engagements that can include the latest menu news, celebrations with a fun video, automated milestones or visual ratings scales.

harri

This is more than engagement. Create connected frontline teams that stay with Engage360.

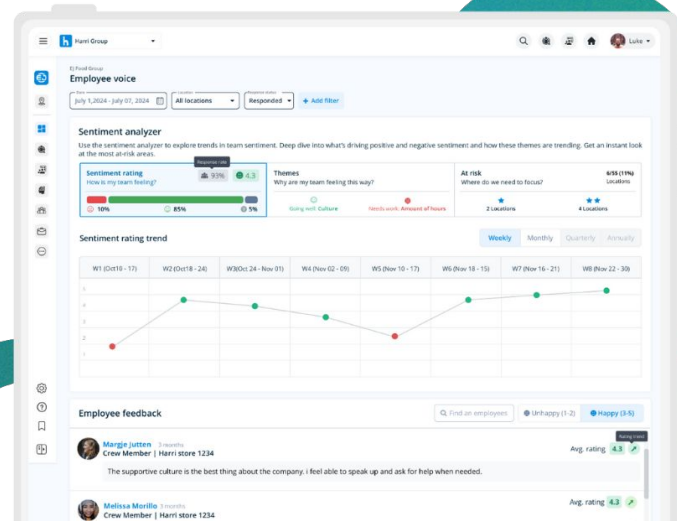

The actionable insight to intervene and stay one step ahead of turnover.

Equip managers to take action, fast.

Gathering feedback alone doesn't drive meaningful change. Harri Engage360 surfaces real-time sentiment insight across your organization, locations and people to fuel data-driven action – **that's how you really move the needle on retention.**

Reduce sub 90-day leavers.

With automation, Harri Engage360 delivers extra communication, check-ins and news that create an extra level of support for new employees on their path to productivity – **one client reduced sub 90-day turnover from 44% to just 5% after implementing Harri Engage360.**
